DILIP RAJEEV

An Easy Proof Of Extraterrestrial Life

And The Discovery Of A Civilization
On Mars

Back in 2009, I were on Google Maps
exploring the areas around the
Sphynx, and the Great Pyramid in the
Giza Plateau.

It occurred to me, that a face-like structure - which some scientists had argued is likely artificial - exists on the Cydonia Mensae region on Mars.

ON THE LEFT IS A
1976 Viking 1 photograph of the
Face on Mars,
[http://science.nasa.gov/science-
news/science-at-
nasa/2001/ast24may_1/](http://science.nasa.gov/science-news/science-at-nasa/2001/ast24may_1/)

While NASA dismissed the face as an
optical illusion, Goddard Spaceflight
Center engineers

Vincent DiPietro
and Gregory Molenaar,

argued that the structure resembles a
face from any angle

- and that would have the likelihood
of it being artificial, high.

Thinking about this, I turned my attention to the structures near-by.

If any civilization had built something there, it is likely there will be artificial structures of a similar scale near-by.

Artificial structures have geometric characteristics like symmetry, ordering in placement, etc..

For instance, a mud-hill will be rather undefined in form, and its left and right portions will not look similar. In a building, if a draw a line along the center, we often find similarity, a symmetry. We design forms with symmetry, as symmetry is pleasing to vision, and also to serve the engineering design purpose.

An artifact, or artificial design done
by a humanoid mind, will thus tend
to have symmetry

- say, like a mickey mouse
head,

the left and right sides will be similar,
and, in the reverse, from such
ordering we realize it were designed
by intelligent beings.

Buildings, likewise, are placed in an
ordering in a city. Roads designed
take right-angle turns, rivers don't.

I took a look at the structures
near the face thing, for evidence
of these.

The image to the left summarizes
what I observed near the Face On
Mars.

The Image of the Area is from the European Space Agency. The sketches on the image were done by the author

Structures near the Face On Mars,
reveal a high degree of symmetry, and
other geometrical characteristics of
artificial structures, in their
placement.

Cydonia region perspective2](http://www.esa.int/spaceinimages/Images/2006/09/Face_on_Mars_in_Cydonia_region_perspective2)

THE SYMMETRY OF THE
MICKEY MOUSE HEAD

IS OBVIOUS,

N →
10 km

ESA/DLR/FU Berlin (G. Neukum)

Cydonia Mensae region on Mars.
Reveals artificial geometry, typical of
engineered artifacts.. Littered with
pyramidal structures, and the
structures themselves show
symmetry, artificial ordering in
placement, etc.

IMAGE Source: ESA. Drawings on
top, done by the author.

our image](http://www.esa.int/spaceinimages/Images/2006/09/Cydonia_region_color_image)

JUST
AS
THE

AREA AROUND THE FACE
ON
EARTH, THE SPHYNX,

IS LITTERED WITH PYRAMIDS,

THE AREA AROUND THE FACE
ON MARS IS LITTERED WITH
PYRAMIDAL STRUCTURES
BOTH LARGE AND SMALL,

FIVE MAJOR CIRCULAR
STRUCTURES IN THE REGION

WE FIND PLACED AT THE
CORNERS OF
A

RATHER REGULAR PENTAGON

THERE IS A DEGREE OF
SYMMETRY IN THE
PLACEMENT OF THE
CIRCULAR STRUCTURES
AROUND THE
BUILDING LIKE STRUCTURES

IF THESE WERE ANCIENT
MARTIAN BUILDINGS,

THEY ARE OBVIOUSLY
BURIED UNDERNEATH THE
GROUND NOW ,

THE FLAT TOPPED PYRAMID

AND THE MICKEY MOUSE
HEAD NEAR THE FACE ON
MARS,

ARE PLACED ALONG THE
NORTH-SOUTH MERIDIAN,

THE THREE STRUCTURES ARE
PLACED ROUGHLY ON THE
CORNERS OF A RIGHT
ANGLED TRIANGLE

We must note that these structures span around a mile across in their lengths, and hence significantly larger a feat of engineering, if artificial, than any structure of the sorts humanly engineered.

I EXPLORED FURTHER
THE AREA AROUND THE
SPHYNX AND THE GREAT
PYRAMIND ON EARTH

AROUND 5.2 KMS FROM THE
SPHYNX,

ON the GIZA PLATEAU,

I DISCOVERED

A BURIED MILITARY ARTIFACT

AT

29 56' 7.16"N 31 6' 29.97"E

IMAGE SOURCE: GOOGLE
EARTH

Great Sphinx Of Giza

This is an aerial photograph of the Giza pyramid complex in Egypt. The Great Sphinx is visible as a large, light-colored, eroded rock formation in the center-left. To its right are the three Great Pyramids of Giza, appearing as dark, square-shaped structures. The surrounding area includes a dense urban landscape with buildings and roads, and a large, sandy desert area to the left and bottom.

29 56' 7.16"N 31 6' 29.97"E

Buried military artifact on Giza
Plateau, in the desert region adjacent
to the Face On Earth, The Sphinx,
Location: 29 56' 7.16"N 31 6'
29.97"E

EARTH

An Easy Proof Of Extraterrestrial Life

MY INITIAL GUESS WERE
THAT THE BURIED
STRUCTURE IS DISUSED
SURFACE TO AIR MISSILE
TECHNOLOGY, NOW
UNDER DESERT SANDS

WHAT STRUCK ME WERE THE
SIMILARITY IT HAD TO THE
FLAT TOPPED PYRAMID NEAR
THE FACE ON MARS.

NOTE THAT THE ARTIFACT
ON EARTH HAS RIDGES ON
ONE SIDE,

AND A “C” SHAPED
STRUCTURE ON ITS TOP,

OPENING AT A 7 O’
CLOCK ANGLE

RELATIVE
TO THE RIDGES,

AND NOTE THAT THE
MARTIAN ARTIFACT ALSO
HAS RIDGES ON A SIDE,

AND A C SHAPED ARTIFACT
ON TOP,

OPENING AT A 7 O'
CLOCK ANGLE

RELATIVE
TO THE RIDGES,

BOTH THESE HAVE A FLAT-
TOP PYRAMIDAL DESIGN. AND
STAND ON AN ARTIFICIAL
PLATFORM.

BOTH THESE HAVE
RIDGES ON EXACTLY
ONE SIDE

BOTH THE STRUCTURES, THE
ONE ON MARS AND THE ONE
ON EARTH, HAVE
SYMMETRICALLY PLACED
CIRCULAR ARTIFACTS
AROUND THEM.

Both the structures IN THEMSELVES, show A HIGH DEGREE
OF SYMMETRY. Neither is the kind of symmetry in form
characteristic of “geographic” forms - of forms carved in mud by
random nature - things as rain and wind, nor are rather perfectly
and symmetrically placed circular forms around a structure, often
the random work of nature.

THAT
BOTH
THE ARTIFACTS,
THE ONE ON MARS,
AND THE ONE ON EARTH,
HAVE A C-SHAPED STRUCTURE
ON TOP
BOTH OPENING AT
A 7 O' CLOCK ORIENTATION
TO THE RIDGES ON ONE SIDE

IS A LEVEL OF SIMILARITY IN
ENGINEERING THAT
MAKES IT
RIDICULOUSLY OBVIOUS
THAT THE TWO
ARTIFACTS ARE OF A
SIMILAR
ARTIFICIAL
DESIGN
